THE GOLD FEVER

Has Seized Hundreds of People on Pacific Coast.

A GENERAL EXODUS TO ALASKA.

On Her Return Trip the Steamer Portland, which recently brought down a Cool Million of the Yellow Dust, Will Be Crowded to Her Utmost Capacity. Stories of Rich Findings.

Seattle, Wash., July 19.—The excitement over the Klondyke mines is on the increase, and hundreds of people are preparing to sail for Alaska.

The steamer Portland, which brought down over \$1,000,000 in gold, is on her return trip, and will be crowded to her utmost capacity. Conservative men who have been in the country claim there is room for hundreds more in Alaska.

They admit that all of the fields in the vicinity of Klondyke have been taken out every river in Alaska is, in their judgment, filled with gold which can be secured.

Inspector Strickland of the Canadian mounted police, who came down on the Portland, says:

"When I left Dawson City a month ago there were about 800 claims staked out, and there were between 2,000 and 3,000 in there. We can safely say that there was about \$1,500,000 in gold mined last winter. The wages in the

mines were \$15 a day and the saw-mills paid laborers \$10 a day.

"The claims now staked out will afford employment to about 5,000 men, I believe. If a man is strong, healthy and wants to work, he can find employment at good wages. Several men worked on an interest or what is termed 'lay,' and during the winter realized from \$5,000 to \$10,000 each. The mines are 35 to 100 miles from Alaska boundary."

A detachment of mounted police of the Northwest Territory, which passed through Seattle two years ago, struck it rich. Five of the 20 guards returned on the Portland with gold amounting to \$200,000. The other 15 remained in Alaska to engage in mining.

Mrs. E. A. Gage, wife of the son of secretary of the treasury, Lyman Gage, came down on the Portland. She went north last March. She said in an interview:

"The country is enormously rich. The present gold diggings are only a very small part of it and there is little doubt that there millions only waiting for the miners to come and dig it out."

The North American Trading company will not allow a man to take any food north from Portland, but it will guarantee to furnish him food for a year at less than \$4 a pound. He can secure sugar and tea guarantee before leaving this city.

A letter received from Dawson City under date June 13 contains many interesting facts. The writer, Arthur

Perry, a well known citizen of Seattle, says: "The first discovery of gold on the Klondyke was in the middle of August, 1896, by George Carmack, on a creek emptying into the Klondyke on the south, called by the Indians Bonanza. He found \$1.00 to the pan on a high rim, and after making the find known as Forty Miles went back with two Indians and took out \$1,400 in three weeks with their sluice boxes. The creek was soon staked from one end to the other, and all the small gulches were also staked and recorded."

Death of an English Financier.
London, July 19.—Edward Charles Baring, First Baron Revelstoke, is dead. He was born in 1823 and was created a baron in 1885. He was formerly director of the Bank of England and was the senior partner of the firm of Baring Brothers, financiers.

Killed by Lightning.
Erie, Pa., July 19.—Mrs. Horace Noble, a prominent lady of this city, was instantly killed at Bill's park near here by a flash of lightning. She was sitting in the parlor with some companions when the house was struck.

Death of a Chilian Officer.
Valparaiso, Chili, July 19.—General Jose Velasquez, the most brilliant officer in the old Chilian army, and one who did distinguished service throughout the Pacific war, died in this city of lung disease.

DAZZLING

Are the Latest Stories From the New Gold Field.

The Steamer Portland Brings Two Millions of Wealth—The Climate Fearful and the Expense of Getting the Treasure Enormous—Rush for the Field.

By Telegram to THE TIMES.

Seattle, Wash., July 19.—The amount of treasure brought by the steamer Portland from the Klondyke regions is now estimated at nearly two millions. Many passengers eluded payment on their gold by secreting it in their luggage. One brought \$4,000 in nuggets in a blanket. New discoveries were made on American creek and Minute creek, probably relieving the strain on Dawson City. It is said the climate is fearful to endure. There are eight months of winter, in which no work can be done, leaving only four months of the working season. Those going must be idle at great expense and hardship eight months. A thousand sheep carried by the steamer Alki will be landed at Dyea and driven a hundred miles over the mountains to the Yukon valley. They will bring fifty cents a pound. Reports from Juneau are that stores are being closed and every able-bodied man is going to the mines, many with no outfit whatever.

McKinley is called "Wabbling Willie" in Washington. They are "getting on" to his failings early in the game.

Brother Hard is worrying very much about the gold Democrats, and well he may. It is not at all probable that the Republicans of Scioto county will support the gold Democrat that he forced on the gang ticket with Mark Hanna money.

Our old friend, Isaac Woodruff, is popular with God's poor. He will continue to look after their interests for the next three years. He has been tried in the balance and found not wanting.—Tribune.

Yes; McCormick and Woodruff are splendid running mates. Two of a kind—a splendid pair of Jacks. They will take the pot, sure, if there is any in sight.

Once in a great while a colored man lynched north of Mason's and Dixon's line, but it is not, thank Heaven, a common occurrence.—Tribune.

It has become quite frequent in Ohio. More so than in any Southern state, in proportion to the per cent. of colored population. Thus it is evident the colored man is more likely to be lynched in Ohio than anywhere else. Ohio governors stood by and willfully, or helplessly, permitted mob rule and lynch law.

There is a great difference being a candidate and a coal operator and as coal operator and no candidate. Mark Hanna is in a more amiable mood today in regard to the rights and wrongs of the coal strike than he has ever been known to be in before in regard to any similar labor demonstration. He now exudes the milk of human kindness, while it used to be that he was bitter and uncompromising. The coal miners' vote is a pretty large one in some of the Ohio legislative districts.—Pittsburg Post.

The South Webster Fire Brick works is one among many institutions that feels the improvement. It is right now doing a better business than ever in its history. True, this may partially be due to excellent management, but the company cannot back orders unless people will buy.—Blade.

Is it the old fire brick plant or the building brick? The best evidence of a prosperous condition of our former industries would be a boom at Sciotoville and the East End. South Webster, Sciotoville and the East End are paying only ninety cents a day under the McKinley boom.

The convention of Republican clubs at the Detroit adopted a resolution commending President McKinley and congress for sending a monetary commission to Europe in the interest of bimetalism. That is but one way of arriving at a result favored by Democrats. If the commission succeeds no one will rejoice more heartily than Democrats. In fact, as to a vast majority of the people of the United States—the entire body of one of the great parties and a great majority of the other—there is only, from what now appears, a difference of methods on the silver question. If the commission plan fails after a fair trial the demand for bimetalism will not abate, but will merely take on a new shape. The American people may differ in the way they want to see free silver coinage restored, but they want to see it restored. If one plan fails they will adopt the alternative left them. That plan is embodied in the free coinage bill for which President McKinley voted when a member of congress. The commission failing, as it probably will, we would not be at all surprised to see President McKinley returning to his first love somewhere about the year of grace 1900. He is built that way.—Pittsburg Post.

This don't seem to agree with the following, from the Blade:

"The able, courageous and determined stand taken by Carlisle, the foremost Democratic statesman in the land, the unexpectedly large and enthusiastic convention of the gold Democrats at Louisville, the decided stand taken by David B. Hill in his Fourth July orations show that the free silver Democratic party in deserting the old principles of Democracy, has lost

to itself the greatest leaders and a large and growing rank and file which believes in the principles of common honesty and common sense. The Democratic party can never again secure the respect and confidence of the American people until it returns to the leaders and the principles that it has deserted."

This would indicate that the few tools of Wall street, New York, and Lombard street, London, will be ample compensation for the loss of a million or more voters who are for bimetalism. It may pay the individual who can deliver a gold vote in the legislature to Mark Hanna for boodle to buy up Scioto county for the time being, but we desire to admonish Mr. Hard that the gang don't carry Scioto county Republican votes in their vest pockets this year. Your advice to the Democratic party but indicates the frightened condition of the gang in this county.

PAWNED JEWELRY.

A New York Firm Catches a Customer in a Big Swindle.

New York, July 19.—William A. Bellwood, a well known dealer in antique books and rare jewelry at 1332 Walnut street, Philadelphia, who rents an expensive suite of rooms at the Plaza hotel here, is under arrest at police headquarters charged with having swindled Marcus & Company, jewelers of this city, out of jewelry valued at many thousands of dollars. In police court the prisoner was remanded.

A small portion of the jewelry has been recovered and pawn tickets for a large part of the remainder have been found. The detectives say Bellwood has confessed to his dealings with Marcus & Company, but denies that he has swindled other firms.

Bellwood is a Frenchman of good address and refined manners. He began his dealings with Marcus & Company about a year ago. He frequently bought goods from the firm on memorandum, and so far as the police know his dealings were for a long time legitimate.

Recently Marcus & Company learned that Bellwood was seen frequently at the racetracks, where he was reported to have been a heavy loser.

Last week Bellwood appeared at the store of Marcus & Company and called for a diamond necklace, which, he said, he wanted for a lady customer.

He selected one valued at \$7,500 and left the store. He was followed by an employee of the firm and was seen to go into a Bowery pawnshop, where he pledged a piece of jewelry, believed to have been the necklace, which he had just received on the memorandum.

It was decided to arrest Bellwood. On his person was found the costly necklace, together with a bundle of pawn tickets on which he had received \$13,960. Of this amount \$7,400 had been obtained on jewelry received from Marcus & Company, and \$6,560 on jewelry which he claimed to own himself. The total number of pawn tickets recovered was 42.

CIGARETTES

Have Wrecked Young Charles Dixon's Body and Mind.

Plutiful Condition of a Young Man Who Is a Slave to That Habit—Suffering Untold Agonies He Is Finally Placed Under A Physician's Care.

Charles Dixon, of West Front street, eighteen years of age, is now confined to his room, a wreck in mind and body, as a result of the cigarette habit. He has been a slave to the habit for years, and when deprived of their use for a few minutes he becomes wild, staggering around as if intoxicated. At times, when suffering these attacks, he will try to destroy everything in sight, throw the pillows at the clock, knock over the chairs and tables, begging everyone in sight to get him a cigarette. Again, he will be quiet, with his mind apparently on something else. When some one incidentally mentions cigarettes, he will at once go into convulsions, and with nerves twitching and a wild expression of the countenance, he will stagger around like a drunken man, begging for cigarettes. A friend called on him yesterday and he asked him for cigarettes. The friend replied that he smoked cigars, and Dixon begged him to trade some of his cigars for cigarettes. He has grown worse rapidly and is now under a physician's care.

NO CLUE

Has Yet Been Obtained to the Identity of the Thieves Who Entered the Ware Residence.

The police have not, as yet, got any definite clue to the identity of the thief who entered the residence of Will H. Ware, on East Second street, Friday night. It has since been learned, however, that the same night a man answering the description of the fellow seen by Policeman Stokely was caught prowling around the residence of Mrs. Smith, corner of Fourth and Gay streets. He did not enter the house, however. During the night an attempt was made to enter the residence of Mrs. W. Q. Adams, but the thief was frightened away before he got anything. Doors and windows were also tried at the residence of E. H. Shaw, on East Fourth street. The police are of the opinion that a band of hobo robbers were at work in the city, but fortunately did not succeed in getting anything.

A BIG FIRE

Threatened a Part of the Village of Lucasville With Destruction Last Saturday.

The village of Lucasville has been having little thrills of excitement the past few days over a fire which has been raging near the Grimes grain elevator. An immense pile of corn cobs has accumulated near the elevator this summer and these caught fire the early part of the week. The interior of the pile was a smoldering mass of fire before it was discovered, and attempts to extinguish the fire were unsuccessful. It looked for a time as though the grain elevator and surrounding buildings were bound to go up in flames, and there was considerable excitement. A big force of men was put to work Friday and worked all day, that night, Saturday and night before they had the fire under control.

A WILD ENGINE

Causes Hon. A. C. Thompson to Meet With A Painful Accident on the C. & O. Saturday Afternoon.

Hon. A. C. Thompson arrived home from Washington, D. C., Saturday afternoon with a bandaged head, the result of a little smash-up on the C. & O. at Huntington. Mr. Thompson was standing in the toilet room of one of the Pullmans while the train was lying at the depot, when a wild engine, engaged in switching another Pullman on the train, crashed into the sleeper. Mr. Thompson was thrown violently against the side of the toilet room, receiving a bad cut over his eye. The wound bled profusely and it was at first thought that he was seriously injured. After it was bandaged, however, he was able to come on home. At the time of the accident another passenger was shaving and he thought at first that he had cut Mr. Thompson with his razor.

GREAT SPORT

Enjoyed by Some Portsmouth Men Fishing in the Northwest.

Tracy B. Johnson returned last night from a two weeks' trip in the Northwest. He attended the big Elk gathering at Minneapolis and managed to get in several days' fishing in the small lakes about sixty miles north of Minneapolis. He was accompanied on the fishing trip by Mr. J. H. Varner, of this city, and Mr. Gregg, of Minneapolis. Mr. Johnson caught the biggest fish on the trip—a splendid, eight-pound pike, and Mr. Varner caught the largest number of fish. The party returned to Minneapolis with over one hundred pounds of dressed fish. Mr. Varner will return Tuesday.

AN IRATE FEMALE

Battling from Georgia, Puts a Trio of Portsmouth Young Men to Flight at the C. P. & V. Depot.

Frank Varner, Dr. M. L. Pixley and Policeman Samuel Beatty were talking about Kentucky hospitality out at the C. P. & V. depot Saturday morning, when a middle-aged lady, who was sitting in the waiting room, joined in the conversation and pitched into Varner in great style. She said the Kentuckians were a rude, disagreeable, overbearing set of people and she dared Varner to say otherwise. Frank was almost paralyzed with astonishment and beat a hasty retreat from the field, followed by Pixley and Beatty in bad order. The rout was complete. Later Varner returned and had a pleasant chat with the woman. Her name was Mrs. Wille, and her home is near Thomasville, in Thomas county, Georgia. She was on her way to Huntington to visit relatives. It appears that she had her trunk smashed on the C. & O. railroad at Cincinnati and stopped off at Maysville to get it fixed. She was approached and insulted, she says, by a man who claimed to be the Maysville chief of police. He wanted to know her business and talked about locking her up on suspicion. The woman left the C. & O. at this point to take the N. & W. for Huntington because she "wanted to get even" with the C. & O. people for smashing her trunk. She claimed to own a plantation in Georgia and glared in the fact that once upon a time she had something to do with a mob that hung a man for some crime or other. Varner now has loads of information on Southern people's character.

DIDN'T KNOW IT WAS LOADED

Seven Year Old Boy Shot His Four Year Old Brother Who Fortunately Was Not Seriously Injured.

A "didn't-know-it-was-loaded" incident created some excitement on Fourteenth street Sunday morning. Fortunately it did not result as seriously as such incident usually do. The children of Will White, of 93 East Fourteenth street, were the parties. They found their father's gun Sunday morning, where it had been left, after being used for practice Saturday evening. Orril, a seven-year-old boy, picked it up and pointed it toward his four-year-old brother, Montford, with the remark, "I'm going to shoot." He was very much surprised when it went off. A cartridge had been left in it. The ball grazed the back of Montford, clipping a little piece of flesh and leaving a scorched line to mark its passage. The wound was not serious. Little Montford has had his share of misfortunes recently. Only a few days ago he stepped on a piece of glass, nearly cutting his foot in two.

Mt. Joy Fair.

The Mt. Joy fair association is striving to make the exhibit of 1897 excel anything of the kind heretofore. Their exhibition this year will be held August 25th, 26th and 27th.

STEANGERS NOW.

They Parted and the Pain of It Went With the Parting—A Portsmouth Citizen Is Happy Now.

"Parting," a word of sorrow, generally. Exceptions, yes; some times 'tis joy. Parting with friend may be painful. But parting with pain must be joyful.

For instance, a pain in the back. Not a friend, you will say. Oh, no; but it sticks like one. Hard to shake off a bad back.

A back that is lame, is weak, or aching.

Is really a friend in need.

It is warning you of danger to come.

It's the kidneys talking trouble.

Kidneys are near the small of the back.

And if the kidneys are troubled, so is the back.

Head; the warning backache brings. Or things more serious follow—

Urinary troubles, diabetes, Bright's disease.

Part with them before it is too late. Bad back and a Portsmouth citizen are now strangers—they parted.

Mrs. Nancy Carver, of No. 166 Fifteenth street, says: "Although I had for years been troubled with my back and kidneys, I have been feeling perfectly well in those respects since I used Doan's Kidney Pills. Before using them I never was free from pain and misery in the small of the back. I was often taken with stitches, and for the time being it would be almost an impossibility for me to move. I consulted medical men and I got a measure of relief, but I was never entirely rid of the backache. It would become suppressed for the time, but that was all. It was all from the kidneys, I knew, because there were other pronounced and well-defined evidences of kidney disorder present. I chanced to read an advertisement about Doan's Kidney Pills, and as I was suffering acutely at the time, I went to Fisher & Streich's drug store and obtained a box. I used them, and, surprising to me, they drove away the trouble. It seems needless for me to say that Doan's Kidney Pills will never fail to receive my praises."

Doan's Kidney Pills are for sale by all dealers. Price 50 cents. Mailed by Foster-Nibbarn Co., Buffalo, N. Y., sole agent for the United States.

COMING BACK.

Said That Ex-Health Officer Prendergast Will Give Himself Up.

The Enquirer yesterday states that letters received from Dr. J. W. Prendergast by friends state that he is coming back to Cincinnati to stand trial on the indictments against him for attempted blackmail. He said the only reason that he jumped his bond was that he knew he could not get justice in the excited state of the public feeling. Now that things have quieted down, he was ready to face the court.

County Fair.

The executive committee of the Portsmouth Agricultural society met at the office of Thompson & Kriker Saturday afternoon to further the plans of the work for the September fair. All arrangements are now about completed. The speed ring, while confined to horses of the counties of Scioto and Groenup, will be of interest, developing some fast flyers at home. The farmers are taking great interest in the work, and this of itself is enough to insure a good fair.

A New Drug Store.

A young man from Columbus, brother of Sherman Miller, of Ninth street, will open a drug store in the room at the corner of North Waller and Ninth streets, lately occupied by Geo. Bauer with a grocery. Mr. Miller's father and mother will move here and reside in the rooms over the store.

Judge Harper Honored.

Judge J. J. Harper, of Washington, O. H., formerly of this city, has been appointed a member of the executive committee of the Ohio Valley Bi-metallic league. Judge Harper is becoming known as one of the leading free silver men of the state.

To Open August First.

D. Frank Miller, mention of whose intention to locate here was made in Saturday's Times, expects to have his drug store opened at the corner of North Waller and Ninth streets by August 1st. Dr. Miller is a druggist of sixteen years' experience.

Her Health Restored

THE misery of sleeplessness can only be realized by those who have experienced it. Nervousness, sleeplessness, headaches, neuralgia and that miserable feeling of unrest, can surely be cured by Dr. Miles' Restorative Nervine. So certain is Dr. Miles of this fact that all druggists are authorized to refund price paid for the first bottle tried, providing it does not benefit. Mrs. Henry Bruns, wife of the well known blacksmith at Grand Junction, Iowa, says: "I was troubled with sleeplessness, nervousness, headache and irregular menstruation; suffering untold misery for years. I used various advertised remedies for female complaints besides being under the care of local physicians, without help. I noticed in Dr. Miles' advertisement the testimonial of a lady cured of ailments similar to mine, and I shall never cease to thank that lady. Her testimonial induced me to use Dr. Miles' Nervine and Nerve and Liver Pills, which restored me to health. I cannot say enough for Dr. Miles' Remedies." Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nervous free. Address, DR. A Sufferer Cured

"Every season, from the time I was two years old, I suffered dreadfully from erysipelas, which kept growing worse until my hands were almost useless. The bones softened so that they would bend, and several of my fingers are now crooked from this cause. On my hand I carry large scars, which, but for

The first bottle seemed to reach the spot and a persistent use of it has perfected the cure."—O. C. Davis, Wautoma, Wis.

"Bill" McCall Badly Thumped by
Charley Thompson.

Thompson Claims McCall Is Responsible
for a Lying Article About Him That
Appeared in the Tribune Sunday
Morning and Called Him to Ac-
count This Afternoon.

"Bill" McCall, a reporter on the morning sheet, was tackled and pretty badly thumped by Ex-Policeman Charles Thompson, on West Second street, this afternoon.

The trouble grew out of an article in the Tribune Sunday morning. It was alleged that Mr. Thompson had abused his wife and that she had left him, going to live with Front street relatives. Mr. Thompson claims that the article was a gross misrepresentation. He suspected that the story was started by Policeman Herriek to injure him, and meeting McCall on the street this afternoon in front of the residence of Dr. W. D. Tremper, stopped him and asked him where he got the information in the article.

"Billy" blushed, hesitated a moment, and then stammered out that he did not write the article and knew nothing about it.

"You're a liar," promptly said Thompson. "I know that you did write it, and I want to know where you got the news."

McCall again denied writing the article and begged Thompson to call around at the office tonight to talk the matter over. Thompson then grabbed the Tribune scribe by the throat, and, pinning him up against the wall, began pounding him. Then "Bill" struck back, and the two pounded away at each other for several minutes. Thompson had the best of the argument and beat and gouged McCall up in bad shape. The latter got in two or three licks on Thompson's face. A big crowd at once gathered, and the combatants were separated, and McCall wearily wended his way to the Tribune sanatorium for consolation and arnica.

No warrants have been sworn out by either party, and there were no arrests. Mr. Thompson stated this afternoon that the Tribune article was a malicious exaggeration, and that while he is opposed to street fighting, his temper got the better of him when he met the man who had lied about him.

AT CAMP MERRY

The Portsmouth Boys Are Enjoying Life to
the Limit—Sunday Visitors.

Camp Merry, Pixley's Farm,
July 19th, 1897.

The camp is composed of "Shorty" Long, Ed. McGuire, Jr., Kinney Funk, Ralph Calvert, Rigdon Hall, Ed. McCoy and Frank Pratt. The boys are all well and enjoying themselves in the best of camp life. The visitors of yesterday (Sunday) were Press Anderson, Frank Miller, Harvey Wills, Dick Yenger, Lou Nichols, Lou Schmitt, John Gotz, John Rottinghaus and Tod Wilhelm. "Alfey" Richardson has left Camp Good and taken up quarters with Camp Merry. He says Camp Good was too slow for him. We float the stars and the stripes on top of a fifty-foot pole. The visitors claim that our camp is the finest they ever saw. The location is one of the best on the river. Our tents are pitched in a grove of willows, and the sun is a stranger here.

Pratt and Anderson caught the biggest fish of all the campers up here. It was a blue cat, weighing thirty pounds. It was caught on a jug, and in time for Sunday's dinner. We served an old-fashioned dinner, with fried chicken on the side, which the visitors enjoyed very much.

"Shorty" Long was in town last night delivering some fish stakes to our homes. Kinney Funk was also down. It was girl night with him and he could not afford to disappoint the young lady.

Your paper is a welcome visitor at our camp. Will write you again.

TWO KENTUCKIANS

Got Jagged on Portsmouth Whisky and
Were Locked Up This Afternoon.

Two gentlemen from Kentucky giving the names of Cassidy and Schwartz respectively were staggering up Chillicothe street this afternoon when Policemen Ingles and McFarland arrested them. On the way to the station house Schwartz showed fight and McFarland knocked him down. This took all the fight out of him, although he let out an old fashioned Kentucky yell every few seconds.

Falling Off in the First Ward.

Mr. Byers, of the First ward, was the first of the men engaged in taking the enumeration of school children to report. He found 493 children of school age in the ward. This is about thirty less than the number reported last year. Most of these belong to families who have moved to other wards.

Mr. Brushart's Condition.

J. J. Brushart arrived home this morning from Edgerton, W. Va., where he was called by the serious illness of his brother, Peter Brushart. The latter is slowly improving.

BASE BALL NEWS.

Platt will pitch with Maysville this week. They go to Knoxville for a series of games.

The Champions and the Light Weight Sports will cross bats at Athletic park tomorrow afternoon. Admission free.

Bodemer also left the team Saturday, going to his home in Cincinnati. He cabbaged a bat as his share of the proceeds.

The Enquirer confirms the report that Platt will be given a trial by Pittsburg, and says that Cincinnati players, who have gone in against him, think he is a wonder and a comer, sure.

It is very evident that base ball has not the strong hold on the people this year that it had last. There is not the same enthusiasm or interest in the team. It may be different later in the season.

The Manhattans defeated the Kentons at the Covington park yesterday afternoon by a score of 7 to 3. This will give the Kenton team the championship ball team of Cincinnati, its quietus.

Milwaukee won a fifteen inning game from Indianapolis Sunday afternoon. Dispatches state that magnificent fielding and batting by Blake was one of the features of the game. This game makes a record for the league.

A Ft. Wayne telegram to the Times-Star stated that Pitcher Severs was overcome by the heat in the game Saturday afternoon with Youngstown, in the fourth inning, and was compelled to leave the game. The Youngstown team lit onto Herr, who succeeded Severs, and pounded five runs out in one inning, winning the game.

Cliff Latimer, who has been catching for Portsmouth, left Sunday to join the Parkersburg team. A couple of suits of under clothing, a lot of handkerchiefs and a couple of ties belonging to "Shorty" Hanesman, and the club's breast protector also made the trip to Parkersburg with Latimer. The boys are indignant at him, and if the things are not returned they will have Latimer arrested.

Otway beat West Union in two games Saturday, in the first game 12 to 6, and in the second game 11 to 0. Otway made errors behind Platt, who pitched the first game, costing several runs. Tiebert pitched in brilliant form, and the Otways gave him perfect support, hence the shut out. Harring caught for Otway in big league fashion. McMillan, Otway's first baseman, got a hat from Mullon, the West Union batter, a prize offered for a hit over a certain sign board.

There is still considerable talk about there being a game of ball next Sunday afternoon at Athletic park, but the chances are very much against there being a game. Attorney Funk, who takes a great interest in the ball team, has advised the boys that they cannot rely on the decision of Judge Oug. He regards this as the decision of a base ball rooster and does not think it will hold for a minute when the supreme court gets hold of the case. This being the case, unless by consent of the Sunday league, there will be no games at Athletic park on Sunday.

Score Card Men Hero.

A quartette of score card men blew in the city on a freight train Sunday night. They came here to work for Black, the gentleman who has the score card privileges here for the races next week. They thought the races were this week. The crowd went to Chillicothe this morning.

RUSH OF WHEAT

Will Soon Start From the West to the
Atlantic Seaboard.

Kansas City, July 19.—Long trains of empty freight cars have rolled out of Kansas City for two weeks and dropped off in twos, threes and fives on side tracks along the lines of the railroads in Missouri, Iowa, Kansas, Nebraska and Oklahoma. These empty freight cars, of which there are thousands, will be filled with new '97 wheat inside of four or five weeks.

A tremendous grain rush is expected and the best of management by railroad officials will be needed to prevent a huge grain blockade or a grain famine. Conservative estimates of crop statisticians place the yield of wheat for this year in Kansas alone at 66,000,000 bushels.

Relief Work to Be Reduced.

Simla, India, July 19.—There has been a satisfactory rainfall throughout the northwest provinces and the authorities intend to reduce the extent of the relief work.

MAKING A REPORT.

Republican Conferees Hard at Work on Details.

PUSHING THE NEW TARIFF BILL.

It is the General Opinion Among the Statesmen at the National Capital That the Dingley Measure Will Be a Full Fledged Law Before the End of the Present Week.

Washington, July 19.—The indications are that the tariff bill as agreed to by the Republican conferees probably will have passed both houses of congress and be a law at the end of the present week.

Delays and complications now unanticipated might somewhat prolong the final struggle. The Republican conferees have been working hard consulting and arranging the details of the report which they now believe they will be able to submit to their Democratic colleagues soon.

The bulk of this work has fallen upon the shoulders of Senator Allison and Governor Dingley, who are preparing the statements of the effect of the changes made by the conferees, which will be submitted to their respective houses.

They have had a small army of clerks at work in the room of the senate committee on finance preparing the bill for the printer. If this last can be accomplished during the night so that the printed bill can be laid before the Democrats the debate will begin in the house during the afternoon.

It is not believed that there will be any disposition on the part of the Democratic members of the conference to delay the bill in full committee, but the Democrats have had no meeting to determine their course on this point. Governor Dingley expressed the opinion that an hour would be sufficient time in which to explain the changes made by the conferees to their minority colleagues on the committee.

One or two of the Democrats are inclined to insist upon a day for deliberations on the changes, but they of course realize that they are helpless if the majority desire to report the bill over their protest, and inasmuch as the Republican leaders of the house decided to give two full days for the discussion of the report in the house, they probably will acquiesce in the decision of the majority to make the report.

The report must of course be acted upon by the house before it is considered in the senate. The committee on rules will prepare a rule which will bring a vote on the report before adjournment on Tuesday. The rules will be presented and adopted as soon as the conferees make their report, probably soon after noon. The debate will follow immediately.

The program in the senate is much more indefinite on account of the wide latitude allowed for debate and the absence of any parliamentary method of bringing the report to a vote.

The Democratic senators, it is safe to presume from their talk, intend to assail the compromise on sugar, to which the conferees agreed, and to make a pretty stiff fight against the restoration to the dutiable list of cotton bagging, cotton ties, burlaps, etc., which they succeeded with the aid of the Populists and one or two Republicans in placing on the free list.

BULK OF TRADE

From the Hawaiian Islands Comes to the United States.

Washington, July 19.—Hawaiian commerce during the last 10 years is the subject of a circular just issued by the department of agriculture. The facts set forth bear directly upon the current discussion of the annexation of the Hawaiian Islands to the United States, and are as follows:

"The comparison of statistics shows that the United States controls 90 per cent of the entire trade of the islands. The total value of exports and imports of Hawaii for 1896 was \$21,578,382, of which about two-thirds, \$15,252,800, was the value of goods exported. The average of exports of the 10 years, 1887 to 1896, was \$11,052,141, and of imports \$6,425,459, leaving an average balance of \$5,626,681 in favor of exports.

"Another impression of the situation may be gained from the statement that our trade with the island in 1896, according to Hawaiian statistics, reached \$20,924,306, the largest amount ever recorded, while the highest figures previously were for 1890, when a total of \$18,332,631.80 was reported. The United States, however, does not yet hold so high a position in furnishing goods for Hawaii as in taking the products of the islands. Of the average of exports for the 10 years, nearly \$11,000,000 a year, the United States has bought practically all. Only one-half of 1 per cent has been sold to other countries. Of the goods purchased by Hawaii, on the other hand, the United States furnishes only about three-fourths.

Mr. Solberg Accepts.

Washington, July 18.—Mr. Thorwald Solberg of Boston has been appointed register of copyrights. Librarian John Russell Young notified him of his selection and Mr. Solberg, who had accepted, and stated that he would take charge of the department on Tuesday. There were a large number of applications for this position, which, next to that of the chief assistant librarian, is the most important on the staff of the new library.

Entertained by Spanish Minister.

Washington, July 19.—Senator Dupuy de Lome, the Spanish minister, and Senora de Lome, entertained at dinner Hon. Stewart L. Woodford, the newly appointed minister to Spain, and Mrs. and Miss Woodford.

VISITING DELEGATES.

Commercial Representatives Discuss the Subject of Reciprocity.

Philadelphia, July 19.—The commercial representatives of Mexico, Central and South America, who recently returned from their 40-days' tour of the industrial centers of the country, assembled at the Philadelphia Commercial museum and held a symposium on the subject of reciprocity. The meeting was of a parliamentary nature and a number of speeches were made, several of the delegates expressing decided views on the tariff question. A general discussion followed.

Dr. Gustav Neuberger, scientific director of the museum, presided. By way of introduction he said: "The United States congress is now passing the tariff bill and in the amendments a special power is given to the president to lower the tariff quotation 20 per cent for each article, which can be included in treaties of reciprocity.

"The question of reciprocity is the most difficult in the world's economy, and our institution has been established with the aim to come nearer the solution of this great problem. Our congress is a part of this great work, necessary to see clearer in the world's production and consumption. We limited ourselves this time to America as the part of the world which not only historically and geographically shall be considered as one, but which also commercially and economically have common interests."

The most pronounced free trader of the party, Arthur S. Hitchings of Rio de Janeiro, had this to say: "I beg first to signify my sincere thanks for the exceeding kindness which, and the other delegates have met with in all the cities we have visited in this country. We have been received in your chambers of commerce, your universities, your clubs and your homes, and on every occasion we have been struck with the wonderful advancement which every branch has shown us.

"Reciprocity—if it were as easy between nations as individuals—would undoubtedly be a just definition of fair and friendly trade, but circumstances often, almost always, create difficulties which prevent a practical realization of such a disposition. That friendly countries should be inclined to make it a system is natural, but I do not think it can exist without free trade, and I would be wrong in holding out prospects which would indicate any treaty by which Brazil would bind itself to favor one country more than others.

"I believe that the exceptional advantages Canada is giving Great Britain are legislative blunders, and time will prove it."

Sullivan as Umpire.

Providence, July 19.—The Hartford club of the Atlantic league against the Pawtucket of the New England, with John L. Sullivan as umpire, was the attraction at Crescent park, and the combination drew nearly 2,000 people to the ballfield. The able way in which the "big fellow" conducted the game was a surprise to many, who expected that his umpiring would be a burlesque.

Fatal Insect Sting.

Easton, Pa., July 19.—Christian Butz of Lower Mount Bethel died in the Easton hospital from the effects of an insect bite. Several weeks ago Butz, who was a wealthy farmer, was stung on the hand. He paid no attention to the bite until a few days since, when he came to the hospital suffering from blood poisoning.

Violent Earthquake.

Rome, July 19.—A violent earthquake occurred in the island of Stromboli, one of the Lipari group, off the north coast of Sicily, on Saturday. The shock was followed by an active eruption of the volcano of Stromboli.

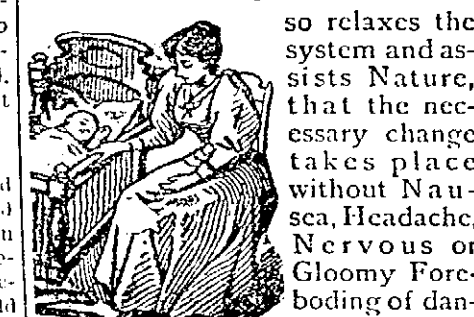

Royal Betrothal.

Paris, July 19.—The Figaro announces that Princess Isabelle of Orleans is shortly to be betrothed to Prince Albert of Belgium.

MANY THINK!

when the Creator said to woman, "In sorrow shalt thou bring forth children," that a curse was pronounced against the human race, but the joy felt by every Mother when she first presses to her heart her babe, proves the contrary. Danger and suffering lurk in the pathway of the Expectant Mother, and should be avoided, that she may reach the hour when the hope of her heart is to be realized, in full vigor and strength.

MOTHER'S FRIEND

so relaxes the system and assists Nature, that the necessary change takes place without Nausea, Headache, Nervous or Gloomy Foreboding of danger, and the trying hour is robbed of its pain and suffering, as so many happy mothers have experienced. Nothing but "Mother's Friend" does this. Don't be deceived or persuaded to use anything else.

"Mother's Friend" is the greatest remedy ever put on the market, and all our customers praise it highly."—W. H. Kise & Co., Whitecourt, Tex. BIT OF FRICTION.

Indications of Trouble In the
Pittsburg District.

STRIKERS MARCH TO THE MINES.

Plans For Bringing Out the Working
Miners are Discussed at Meetings—Con-
servative Leaders Claim There Will Be
No Bloodshed—News of the Great Strike
From Various Sections.

Pittsburg, July 19.—The events in
the Pittsburg coal mining district in-
dicate that there is trouble ahead. The
strike has been on for two weeks with
no cause for alarm in any quarter, but
now the pangs of hunger and mauling
now of discontent have taken tangible
form, and 1,000 miners marched on
Cannonsburg, the objective point be-
ing the Boone and Allison mines.

A few days ago the operators of
these mines made a requisition on the
sheriff of Washington county for ad-
ditional deputies. It is supposed that
there are at least 30 deputies at each
mine, well armed for any friction that
may take place.

The miners of the Miller and
Tom's Run districts held a meeting.
The men employed in the Slopes and
Bridgeville mines met at Bridgeville.
The gatherings were attended by men,
women and children. The women did
not lag in the interest taken. Many
of them openly branded their husbands
as cowards. They argued that they
might as well fight as starve. The men
said the victory could be won, pro-
vided every miner employed in the sec-
tions where the lake trade is supplied
would join the general movement of
idleness.

Plans for bringing out the miners
at work in the Boone and Allison
mines were discussed. Special com-
mittees were sent from one meeting to
the other. It was decided to march on
to Cannonsburg mines. The Reising
drum band and the Cecil drum corps
were engaged and the march across
the country began. They will mobilize
at Bridgeville and take up the
tramp of 12 miles across country. A
miner who was very enthusiastic over
the plan said there would be at least
1,000 men in line.

Whether the miners will go armed
is not known as yet, but they expect
to be at the mines when the offending
diggers are ready to go to work and
will use every influence possible to
keep them from going into the mines.

The most conservative of the leaders
claim there will be no bloodshed. They
say that when the colliers see such a
big demonstration in favor of what
they term a peaceful battle for bread,
they can not enter the mines and re-
tain their manhood. Every effort was
made to keep the movement a secret
for fear the force of deputies at the
mines would be further increased.
Just what the result will be it is dif-
cult at this time to tell.

WAITING FOR DEBS.

His Presence In West Virginia Will En-
courage the Strikers.

Wheeling, July 19.—Just why it is
so may be a mystery to some, but it
is a fact nevertheless, that Eugene V.
Debs will be able to do more just now
toward bringing out the miners in the
Fairmont region than any other man.

A big meeting at Monongahela demon-
strated this when a local miner got
up and declared that as soon as Debs
came into the region the men would
strike, and that his influence would be
greater than all the offers of the operators
to pay bonuses on coal mined.
This sentiment was loudly cheered.

The organizers at work there admit
that he must be brought into the field,
and it was announced that he will be
at Fairmont on Tuesday. Everybody
wants to hear Debs.

The meeting at Willow Tree school-
house for the Monongahela miners
was a success as to numbers and en-
thusiasm, but there was a serious
cooling off of enthusiasm after the
meeting was over and the organizers
departed.

The Monongahela men will go to
work as usual in the morning. They
will wait until Tuesday, when Debs is
advised positively to come, before
taking any action.

Hugh McDonald, a local miner, pre-
sided, and W. D. Mahon of Detroit co-
livered the address. By actual count
there were 324 men present, of whom
all but 10 were miners.

Shipping West Virginia Coal.

Wheeling, July 19.—There is a heavy
movement of West Virginia coal
through here. Sixty or seventy cars
of coal were transferred from the
Wheeling terminal tracks to the
Wheeling and Lake Erie and started
north without molestation. It is
learned that all the coal being sent
over the Wheeling road is for the Lake

Shore and other Northern Ohio roads
that need the coal for firing their en-
gines.

New Men Ready to Work.

Martin's Ferry, O., July 19.—The
miners at Dillonville were notified that
they must return to work or new men
would be employed. Two hundred
carloads of West Virginia coal passed
through here. The Wheeling and Lake
Erie road has orders for 1,500 carloads.

Will Return to Work.

Huntington, W. Va., July 19.—The
miners at Thacker, Logan and Dingess,
who decided to strike, held a mass-
meeting and reconsidered their action.
They will return to work as usual on
Monday.

Conference of Strikers.

Charleston, W. Va., July 19.—A con-
ference of the strike agitators, Fred
Dilcher and W. H. Hunskins of Ohio,
was held at East Bank with local lead-
ers.

Another Firecracker Victim.

Omaha, July 19.—Dan Farrell, Jr.,
prominent manufacturer and member
of the directors of the Transmissouri
Exposition company, died from lock-
jaw. On the afternoon of July 5 a fire-
cracker exploded in his hand, since
when Mr. Farrell has hovered between
life and death.

Chicago Unions Will Contribute.

Chicago, July 19.—All unions affil-
iated with the Chicago Federation of
Labor will contribute to the miners'
relief fund. At a meeting of the Fed-
eration W. P. DeArmitt and his plan
of true uniformity were severely con-
demned.

SEA SHORE EXCURSION

To Old Point Comfort and Fortress Monroe,
Via C. & O. on Thursday July 22nd.
A Good Attraction.

Among the numerous resorts of the
Atlantic coast none has maintained its
supremacy like Old Point Comfort. An
opportunity to visit it at a popular
priced round trip rate is always taken
advantage of by thousands from the
west who prefer it, and rightly, too,
above the other resorts. The Hygeia
Hotel for many years has held its place
in popular favor and is so well known
as to need no description, but any who
have not visited Old Point Comfort
since the Chamberlain has reached
completion will be delighted with its
magnificent hostelry—immense in its
proportions, luxuriously furnished,
commanding a position of Old Point
Comfort which gives to its guests an
extended view of Hampton Roads har-
bor and the broad Atlantic. Both the
Hygeia and Chamberlain are within a
stone's throw of Fortress Monroe, the
great training school of the United
States Army, whose grand mounts, re-
views and dress parades are a never-
failing source of interest to visitors.
Some representative ship of the United
States Navy, as well as of some other
foreign navies, is nearly always
anchored in front of Old Point Com-
fort, while short excursions can be
made to the Soldiers' Home and Indi-
an Normal school at Hampton, (ten
minutes' ride by electric car) to the
Gosport Navy yard at Portsmouth, op-
posite Norfolk, Va., (forty-five min-
utes' ride by steamer) or to Ocean
View, across from Hampton Roads,
(twenty minutes by steamer) or to Vir-
ginia Beach, (reached by rail in thirty
minutes from Norfolk) or to the three
million dollar ship yards and the for-
eign and domestic shipping at Newport
News (reached in twenty-five minutes
by train). These attractions, with its
surf bathing and fishing, gives a
greater variety to the scenes around
Old Point Comfort than to any other
American sea-shore resort. The Hygeia
and Chamberlain make a rate of \$2.00
per day for this occasion. Round trip
tickets will be sold for the F. V.
limited, leaving Cincinnati at 12:01,
noon, and for the Atlantic express
leaving Cincinnati at 9:10 p. m.,
Thursday, July 22d, at the following
rates:

From Cincinnati, Mayville and in-
termediate stations, \$12.00; from
Portsmouth, \$11.00; from Ironton,
Ashland and Catsletsburg, \$10.00;
from Huntington, W. Va., \$9.50 for
the round trip. Tickets will be good
returning within fifteen days from date
of sale. They will be for continuous
passage to Old Point Comfort on the
going trip. On the return trip stop-
over privileges will be granted at Rich-
mond, Va., Natural Bridge, Hot
Springs, Va.; White Sulphur Springs
and other famous mountain resorts.
The scenery of the Chesapeake and
Ohio along the Ohio, Kanawha, New
and Greenbrier rivers and across the
Allegheny Mountains is of so grand
and varied a nature as to well repay
one for making the trip, even if the at-
tractions at the coast were not so great.
Pullman sleeping car reservations
should be made in advance by address-
ing C. B. Ryan, assistant general pas-
senger agent, Cincinnati, Ohio.

A Builder's Experience.

A USEFUL LIFE RENEWED
IN A REMARKABLE MANNER.

Udney Y. Wilson Was Near Death's Door. Doctors
Failed to Help Him—A Home Remedy Suc-
ceeded in Saving His Life.

From the Evening News, Detroit, Mich.

Udney Y. Wilson, contractor and builder,
living in Detroit, Mich., at 87 High Street,
West, said regarding Dr. Williams' Pink
Pills for Pale People: "For years I have
been out of doors in all kinds of bad weather,
looking after my building contracts. I have
worked many days in the rain and cold to
complete some buildings. About two years
ago I noticed I could not get around as I
should, and commenced to have a severe pain
in my back. I tried the usual remedies with-
out getting any relief, and for nearly a year I
suffered intensely. I kept up as long as I
could, as I had several contracts for buildings
that had to be completed.

"At night I could not sleep. My physi-
cian said it was my kidneys, and every day
I went out doors they would keep me awake
nearly all the following night. Instead of
getting better I became worse, and worried
a great deal about my work. The doctor
said I must quit work and go to bed, or he
would not be responsible for my life.

"All the medicines I took only helped
me temporarily. Some days I would feel
better and go out a day only to be again con-
fined to my bed for weeks at a time. One
day my wife suggested that I try Dr. Wil-
liams' Pink Pills for Pale People, and I
laughed at the idea.

"Finally when I got into such a condition
that I would take almost anything in the
hope of relief, I tried the pills. They helped
me from the start, but I would not acknowl-
edge it and said it was the other medicines
that had just commenced to work. I disliked

sured in its windings," said the man
from New Mexico, speaking of the Rio
Grande. "For a few miles, at its mouth,
light draft steamers run up from the
gulf of Mexico. Above that it doesn't
float a craft except at ferries. In the old
days, when New Mexico was a province
of Spain, the people along the river
didn't even have ferries, and the
only way they had of getting across was
by fording. For this purpose a special
breed of large horses was reared to be
kept at the fords. When the river was
too high for these horses to wade across,
travelers camped on the bank and wait-
ed for the waters to subside. Now there
are bridges over the river at the larger
Rio Grande towns, and in other places
rope ferries and rowboats are the means
of crossing.

"In times of low water a stranger
seeing its current for the first time
would be apt to think slightly of the
Rio Bravo del Norte, as the New Mexi-
cans love to call the great river. Mean-
dering in a small part of a very wide
channel he would see only a little muddy
stream, for ordinarily nine-tenths of the
Rio Grande is underground, the water
soaking along toward the gulf through
the sands beneath its channel. The val-
ley, bounded everywhere to left and
right by mountains or foothills, is sandy,
and the water, percolating the sands
down to hard pan, spreads out on each
side so that it may always be found
anywhere in the valley by digging down
to the level of the river's surface. For
the greater part of the year the river
above ground flows swift and muddy,
narrowing as it swirls round a sand bar
and widening over shallows. But the
thing that strikes the stranger most
quicker is its disappearance altogether
for reaches, many miles in length,
of its channel, which, except it may be,
for a water hole here and there, is as
dry as Sahara. The river is keeping
right along about its business, however,
and where a rock reef or clay bed blocks
its subterranean current it emerges to
the surface and takes a fresh start above
ground, running as a big stream which,
farther down, may lose itself in the
sands again.

"It is when the floods come down
that the Rio Grande shows why it re-
quires so big a channel for its all the
year round use and demonstrates that
if the waterway were even wider it
would be an advantage to residents
along its banks. It is fed by a watershed

of vast area and steep descent, which
in times of rain and melting snows pre-
cipitates the waters rapidly into the
channel. In June, when the snow melts
on the peaks about its headwaters in
Colorado and northern New Mexico, and
later in the summer, when heavy show-
ers and cloudbursts are the order of the
day, the Rio Grande overflows its banks,
deluging wide tracts of valley and some-
times carving a new channel for itself,
changing its course for miles. Where
the valley is unusually wide and sandy,
as below Isleta and in the Morilla val-
ley, the old channels in which the river
used to flow are plainly indicated in the
landscape.

"No one who has seen the great river
in flood is likely to forget the positive
ferocity it seems to display as its waters
sweep all before them, and woe to the
man or beast who is overtaken by them!
The flood arrives without warning. The
sky may be clear above when the travel-
er, leisurely jogging across the wide
channel, hears his wagon wheels grate
upon the sand with a peculiar sound. It
means that the waters are stirring the
sands beneath him, and then, if he
knows the river, he lashes his horse
making at all speed for the nearest
bank, and lucky he is if he reaches it
safe. The chances are that before he gets
there he hears the roaring of waters up
the channel and sees them coming down
toward him with a front like a wall,
rolling forward and downward as if
over a fall, with a rising flood behind.
Many a man and whole wagon trains
have been overwhelmed in this way,
and buried in sands or cast away on
desert banks, no human eye has ever
seen them again.

"The great river has its pleasing and
romantic aspect, so fascinating that it is
a saying among people who live in its
valley that 'whosoever drinks of its wa-
ters and departs will come again to seek
them.' Like the Nile, the Rio Grande
enriches the soil of its valley to the
point of inexhaustible fertility. Along
its banks in New Mexico are fields that
for two centuries have been cultivated
yearly, yielding great crops, and they
are as productive today as when they
first were tilled. Irrigating canals, called
acequias mudras (mother ditches), con-
vey water from the river to be dis-
tributed through little gates to the fields
of the valley, which it both waters and
enriches. A trip along the river reveals
a succession of pictures of a primitive
civilization of the old Spanish-American
type. Adobe villages, with small, flat
roofed houses built about antique
churches, and the spacious houses of the
vicos, or great men; orchards, vineyards,
wheatfields and grazing cattle are all
features of the scenery of the Rio
Grande, the American Nile."—New

DEAR BEER

Two Boys Pay About Ten Dollars
For Nine Bottles.

This Man Will Crack Stone for Thirty
Days for a \$1 Pair of Shoes.

Petty Thievery Furnishes Material for
Mayor's Court—A Cow Causes Serious
Trouble Between Two Sciotoville
Men—Big Grist in Mayor's Court.

Petty thieving was the basis of most of the business in mayor's court this morning. Clarence Haley and James Davis, two boys, were charged with stealing nine bottles of beer, worth thirty-five cents, from a man named Gable. The latter had the beer in his buggy and was going to take it home Saturday evening. He hitched his horse on Findlay street and the boys got into the buggy and took the beer. They were taxed \$4.30 on the other charge.

John Willis, of Sciotoville, was arraigned before the mayor this afternoon, charged with attempting to provoke Michael Conklin to commit a breach of the peace. Conklin had been leading his cow over Willis' land, and Willis told him one day if he did it again he would put a hole through both Conklin and his cow. Willis pleaded guilty and was fined \$5 and costs, amounting in all to \$9.90.

The case of Chas. Wagner, charged with annoying his wife and trying to get her to sue for a divorce, was called this morning. The trial was continued until Charles can get some witnesses now absent.

John Minard was in, charged with stealing a pair of shoes from Chas. Kertendall, the Gallia street barber. The shoes were worth \$1. John took them in fun, he says, but the owner didn't see the point to the joke. He hunted around for them and learned that John had sold them for forty cents. He thought this was carrying the joke too far and had the joker arrested. Minard also thought he had carried the joke too far when the mayor gave him \$4.80 and thirty days.

James Nelson, one of the men fined for loitering around Corney Jeffords' saloon at a suspicious hour, was released this morning, his mother arranging for the payment of the fine.

The Williams was a charity lodger over night.

Marshall Schmitt this morning located and returned to the owner a skiff stolen from a man named Wingo. It was found on a shanty boat, the owner of which said he bought it from a man down the river for \$2.50. He had another one which he secured in the same manner and which is probably a stolen skiff.

HONESTY'S REWARD.

Rev. Geo. Will Wear an Elegant New Suit as a Reward for His Honesty.

About two weeks ago Rev. O. S. Geo, pastor of the colored M. E. church, found a pocket-book. He saw Judge J. W. Bannion's card in it, and without further investigation took his find to Judge Bannion. It contained some very valuable papers. This morning the Judge met the reverend gentleman on Second street and steered him into the store of Hans, Schwartz & Co. and ordered that firm to make the finest suit of clothes in the house for Mr. Geo and charge it to Judge Bannion.

HE'S A TOUGH

But He Will Be Good for the Next

Oscar Birmingham Comes Before the
Mayor Just Once Too Often and Gets
His Just Due—His Female Friend
Gets a Prize Also.

Oscar Birmingham is a typical tough. Extensive travel, a la hobo, over two continents has given him the finishing touches in the science. He is a past master when it comes to general cussedness. Within two weeks past he has appeared before the mayor two times, charged with intoxication and disorderly conduct. The latter always accompanies the former in Oscar's case. A little liquor stirs the animal up in him. Saturday Officers Uhl and McFarland started out to arrest him on the charge of assaulting one Lewis Mohr. They found him in a respectable house kept by Mollie Brown, alias Payne. They placed him under arrest and started to take him to the city prison. McFarland went out to call the patrol wagon, leaving Uhl along with the prisoner. Oscar jumped on Uhl, and when McFarland returned found he had him down over a trunk. They finally got the fighter in the wagon, whereupon he proceeded to have a fit. He told some of his fellow prisoners that he was going to scare Prison Keeper Ohlman out of his boots Sunday by having a few imitation fits. Ohlman caught on and prepared for them. Oscar evidently caught on also and escaped a good shower bath by not having his fits.

Policeman Uhl filed a warrant, charging him with assaulting an officer in the discharge of his duty. The Brown woman was taken to prison with him and charged with keeping a house of ill-fame.

Oscar was arraigned and pleaded guilty. He was fined \$1 and costs and sentenced to sixty days' imprisonment on the charge of assaulting the officer and was fined \$4.80 on the other charge.

The Brown woman was fined \$3.80.

Another Big Tumble In Prices.

While our sale during the past two weeks has been a big success, the lots have become more broken, which makes us all the more anxious to close them out entirely. We are very desirous of making a clean sweep of all summer goods and have made deeper cuts to meet that end. Note the change of prices which will prevail during the balance of this month instead of the former prices marked in plain figures on our goods.
